

RestoGrill Charcoal & RestoGrill Charcoal Family

Congratulations on your RestoGrill purchase!

This unique product is innovatively made to help you produce your in-home grill in a professional results! RestoGrill Charcoal is available in single or family sizes with an option of Western and Asian Grill Unit. RestoGrill Charcoal and RestoGrill Charcoal family comply to the standard & regulations set by international qualifications of CE EN 16510-1:2018.

How To Use

1. Make sure the RestoGrill Charcoal device is properly installed. Make sure the position of the inner box is on the inside, stands stable and does not get caught in the outer box. Make sure the bottom Charcoal Holder is inside the inner box.
2. Heat and light the charcoal from outside for about 30 minutes, after glowing, put it in the inner box of RestoGrill Charcoal.
3. Add enough charcoal, not too much and not more than the upper limit of the inner box.
4. Make sure the Grill (both Western and Asian style) is securely attached to the top of the outer box.
5. Starting the grill process, **do not pour oil/margarine on the charcoal or the bottom of the grill box, because there is a risk of fire, only apply enough oil/margarine or on the food to be baked.**
6. After prolonged use, the bottom base of RestoGrill will expand slightly, this is normal and will return when RestoGrill cools down.

How To Clean

1. After use, wait about 2 hours for RestoGrill to cool down again.
2. Take the grill unit above, and remove / throw the charcoal into a separate place.
3. Grill unit and box can be washed and brushed with soap.
4. Reinstall RestoGrill once it is clean and ready to use again.

IMPORTANT WARNING

1. The RestoGrill can only be operated by instructed persons (please read the operating instructions carefully before use).
2. Do not operate the grill in closed and/or habitable rooms, e.g. buildings, tents, caravans, mobile homes, boats. There is a life-threatening danger by carbon monoxide poisoning.
3. Do not use spirit or petrol for lighting or relighting the charcoal! Only use lighting aids that comply with EN 1860-3.
4. Keep children and pets away from the RestoGrill.
5. The RestoGrill gets very hot and cannot be moved during operation. Do not use it near flammable materials.
6. Do not pour water on the charcoal when it is still hot.
7. Please clean the RestoGrill only after it has cooled down.
8. It is prohibited to dispose of the charcoal ash produced during combustion in a container that may ignite/deform due to the heat.
