VINTEC

Catalogue v.7

The Vintec story

Vintec is recognised across Australia and the Asia-Pacific region as the benchmark for wine preservation solutions.

We offer precision tools for cellaring and serving that are coveted by enthusiastic collectors, sophisticated entertainers and industry professionals alike.

We are deeply passionate about wine, and believe that correct temperature control can unlock a whole new level of enjoyment and satisfaction for your wine experience.

Heritage

The Vintec brand was created in 2000 by two entrepreneurial Frenchmen who shared a common love for wine. They leveraged their previous experience with the Transtherm luxury wine cabinets brand to collaborate with Danish designers and manufacturers to introduce a range of stylish, functional and accessible wine preservation systems.

Products

Vintec has the widest range of wine cellaring and serving solutions to meet all requirements and capacities from 20 to 4000 bottles: if Vintec can't meet your needs, no other brand can.

Knowledge

We offer wine expertise without the ego, to guide you along your wine journey and provide you with knowledge and confidence to appreciate your wine at its best.

Humidity

High humidity will cause mould whereas low humidity will cause corks to dry out. Vintec wine cellars are equipped with a system that recycles water from condensation, ensuring ideal humidity conditions for your wine.

UV Protection

Light and UV rays rapidly destroy your wines by oxidising wine tannins. Vintec wine cellars safeguard your fine wines from harmful light and UV rays with anti-UV treated glass doors.

Vibration Free

Slow, balanced-cycle compressors and wooden shelves are equipped in the Vintec wine cellars, to reduce vibration to the minimum.

Temperature

All wines mature at the same temperature, which is a constant temperature set between 10°C to 14°C. Vintec presents a wide range of wine cellars offering single, dual and multi-temperature models to meet your cellaring needs.

Collector's Choice

The quality of the materials, the innovative technology and the contemporary design make Vintec wine cellars the ideal solution for safeguarding your precious wine collection.

Natural Ventilation

In order to prevent mould growth, which would generate bad odour and risk deteriorating the corks. Vintec provides natural permanent ventilation, introducing renewed air from the ambience into the cellar through an "air circulation" effect.

"I am totally delighted with my Vintec wine cabinet. It combines elegance and functionality of the highest order."

James Halliday - *Leading Australian Wine Critic*

Wine Storage Cabinets (Free Standing/Slot-in)

Features

- Humidity recycling system
- Single/multi temperature
- Borderless black glass door
- Cabinet body colour Black
- Shelves - 4 full adjustable, 1 display, 1¾ shelf
- Electronic temperature control and display
- 2 adjustable feet - front
- 2 castors - rear
- Capacity : 198 Bordeaux bottles
- Packed weight : 85kgs
- Temperatures : 5°C - 20°C
- Electricity consumption : 1kWh/per day
- Power : 240V 50Hz / 60Hz
- Dimensions (HxWxD) 1850mm x 595mm x 610mm

🔲 Double glazed door with anti-UV glass	Digital temperature display with touch controls
Fixed American Oak shelving for optimum capacity	Inverter compressor
🔒 Security lock	Premium strip LED lighting

Audio and visual alarm
Winter function (heating system)
Sabbath mode

FRONT VIEW

SIDE VIEW

NOTE: If a vertical vent space **(Vx)** of 100mm is provided, then a minimum top ventilation gap (Tx) of 50mm is sufficient, but otherwise minimum Tx of 100mm is required.
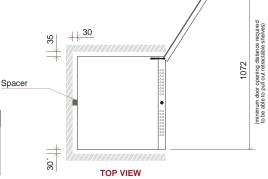

NOTE: Illustrations not to scale.
All dimensions in millimetres.

*Minimum 10mm required whether proud-fit or flush-fit, however 30mm is recommended on the opening edge for easy finger grip access when installed flush-fit.
For complete installation instructions, please refer to the user manual for this product.

Guide to Perfect Serving Temperatures

6°-8°: Sauvignon Blanc & Champagne

10°-12°: Chardonnay

14°-15°: Pinot Noir & Merlot

17°-18°: Cabernet Sauvignon & Shiraz

SERVED BELOW ideal temperature — tannins will be harsher; bitterness and acidity will be accentuated.

12°-14°: Ideal temperature for cellaring all wines

SERVED ABOVE ideal temperature — aromas are stripped of their finesse and hidden by a sensation of alcohol.

0° 2° 3° 4° 5° 6° 7° 8° 9° 10° 11° 12° 13° 14° 15° 16° 17° 18° 19° 20° 21° 22° 23°

2°- 4°: Fridge temperature

17°-19°: "Room temperature" suitable for serving most red wines
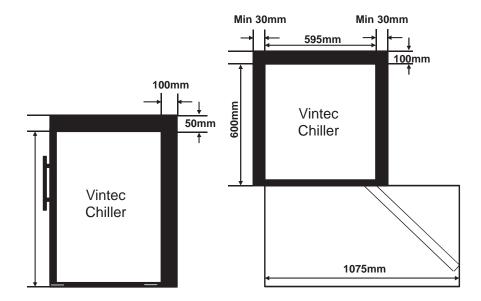

23°- 30°: Ambient room temperature (Malaysia)

Although all wines-reds, whites & Champagnes - should be becellared at the same temperature, different wines have different ideal serving temperatures. Cellar and serve your wines according to the chart below in order to always enjoy your wines at their best.

• For all **FREE-STANDING** placement - Ensure a minimum of **100mm space** at the back of the unit from wall.

• For **VWS035SCA-X** and **VWS035SBA-X** are strictly **FREE-STANDING** only. Kindly adhere to prevent **WARRANTY VOID**.

• For all newly delivered **VINTEC** unit, please ensure a minimum of 6 hours rest time before power on.

Why choose Vintec?

Wine cellar are our specialty

In fact, that is all we do. Being intimately connected to the wine industry and focussed solely on wine cabinets for over two decades, we have developed the largest and most advanced range to suit all wine storage requirements.

We care about your collection

Our highest priority is to offer the best and safest storage solution for your wine. For instance, all our cellars have dark interiors and dim UV-free lighting, instead of white interiors and bright lights. Why? Because it's important to keep your wine in a dark storage area.

The Vintec guarantee

All Vintec wine cellars have been tested to ensure they function in Malaysia climate. Covered by a two year warranty, our cellars bear unique identification numbers that allow their origin and authenticity to be traced. They are also backed by dedicated phone support teams in Kuala Lumpur, Penang, Johor Bahru, as well as a national network of service specialists.

WARRANTY **2** YEAR for all electrical appliances
